Thanks Nancy, Tom will not be available until after the 19th so I will send a Doodle poll around to set up a time to talk by phone.

I am still wondering about the possibility of an in person meeting in Dragoon, as there is interest in that community for one. I don't think this could happen prior to the close of the comment period, but if it happens later, could we be assured that input from the community would be taken into consideration as the final UIC permit is being issued?

Perhaps a January meeting?

Hi Pete,

There would not be an impact on the current process of EPA's draft Permit for the Gunnison project. The Arizona primacy for the UIC program will take more time to develop. We have not yet received a UIC program application from the State.

May I schedule an informational meeting (by conference call) for you and the parties that you represent to better answer your questions on the draft Permit? What days and times are available for you.

Thanks, Nancy

Hi Nancy, I understand the state of Arizona is looking to take primacy over all UIC permitting in the state. DO you have a sense of how this might impact the current status of the UIC permit process now for the Gunnison project?

Hi Pete,

If you have technical questions on the proposed permit, it would be most timely and efficient to answer your questions as soon as reasonable by conference call, video conference, or webinar. Let me know your availability to schedule something, but I am out on leave next week. Please refer to our letter.

Thanks, Nancy

Hi Nancy, I'm at a staff retreat all week and cannot make a conference call or webinar.

I thought perhaps this informational meeting was going to be in person? Is that an option for sometime in December?

Attached. EPA has requested clarification about the meeting we're asking for. At this point, this would be an informational hearing, rather than an official hearing with oral testimony. That may come later in the process.

Nancy -- Christine is with Amerind, Roger is with the Coalition, and Ellen is with DCA.

Thanks all,

--Pete
